

Functional and stable solution with timeless design for electrical table height adjustment.

- Load capacity: max. 800 N push
- Adjustment speed: max. 38 mm/sec. *
- Stroke length:
 - type DD2 680: 680 mm
 - type DD2 500: 500 mm
- 3-part rectangular steel column, 2-stage telescopic, inner profiles move out, Hall sensor for synchronous running

* depending on drive configuration at constant 24/29 V DC without load

Note: Responsibility for OKIN products when used for specific applications and for adherence to the appropriate guidelines, standards and laws is borne by the manufacturer of the complete system into which OKIN products are fitted. We accept no liability for the correctness.

Standard configurations

Performance data

Load capacity	max. 800 N push
Adjustment speed ¹	max. 38 mm/sec.
Stroke length	type DD2 680: 680 mm type DD2 500: 500 mm
Fitting dimension	565 mm

Components

Limit switch	with micro switch
Housing colour	internal/centre profile: zinc-coated external profile: powder-coated, black RAL 9005, silver RAL 9006 motor housing: black RAL 9005
Supply cable	1200 mm, straight

Further data

Protection type	IP20
Protection class	II
Relative humidity	30% – 75%
Ambient temperature	+10°C - +40°C
Assembly options	fitting for cross bar

Extra configurations

Components

Position feedback	Hall sensor for synchronous running
-------------------	-------------------------------------

¹ depending on drive configuration at constant 24/29 V DC without load
